

B+ ENERGY GARMENTS

THE PERFECT BALANCE AND HARMONY BETWEEN PHYSICAL BODY, PSYCHIC MIND AND CONSCIOUSNESS BY COMBINING MAGNETIC FIELDS AND CHROMOTHERAPY.

The purpose of "Be positive" or simply energy (B+) sweatshirts or T-shirts is precisely the rebalancing of psychophysical energy through specific information, which is released and acts on overall harmony and well-being, capable of rebalancing the body, soul and mind of the person wearing the sweatshirts.

Green Shield's B+ sweatshirts, are manufactured with a specific vibration wave through the state of dried GANS of zinc and Co2 mixed in different colors, so the energy waves are in turn combined with fabrics and shapes. The transmission of the message on sweatshirts or B+ t-shirts is done by a nano-energy technique linked to subtle energies, which infuses the color in the desired information. The wearer of Green Shield's B+ Energy Line will experience the rebalancing and/or strengthening, on several levels, of moods, health, perceptions, environments and other facets of his life or world.
